

# Dane Valley Community Energy Environmental Policy Statement

Dane Valley Community Energy Limited is committed to leading the industry in minimising the impact of its activities on the environment.

The key points of its strategy to achieve this are:

- Work to enhance the woodland setting that the Congleton Hydro installation occupies.
- Source from sustainable suppliers to minimise the environmental impact of our activities.
- Minimise waste and toxic emissions by evaluating operations and ensuring they are as efficient as possible.
- Actively promote recycling internally and amongst its suppliers.
- Meet or exceed all the environmental legislation that relates to the Company.
- Maintain a decommissioning programme to minimise the end of life environmental impact of the project
- Use profits from the scheme to provide grants to local environmentally friendly community schemes.
- Include environmental impact as a regular management meeting agenda item.
- Promote Sustainability and the protection/enhancement of the Environment via the associated Education programme.

DVCE Board of Directors.
